

Empresa::getNumeroTitulos

```
graph RL; A[Empresa::operator<] --> C[Empresa::getNumeroTitulos]; B[EmpresasComp::operator()] --> C;
```

The diagram illustrates a central node, 'Empresa::getNumeroTitulos', which is highlighted with a gray background. Two arrows point towards this central node from the right. The top arrow originates from a box labeled 'Empresa::operator<' and the bottom arrow originates from a box labeled 'EmpresasComp::operator()'. Both arrows are dark blue and point directly to the right side of the central box.

Empresa::operator<

EmpresasComp::operator()
